SOAX®
**WETTING
AGENT**

Contains: Polyalkylene Glycol

Guaranteed Analysis: 99% Active Ingredient, 1% Inert Solvent (water)

**FOR HORTICULTURAL USE ONLY.
KEEP OUT OF CHILDREN'S REACH.
CAUTION: SEE BACK LABEL FOR DETAILS.**

**Net Content 3.785 liters (1 gallon)
Liquid Formulation**

DIRECTIONS / APPLICATION RATES

SOAX® Liquid Wetting Agent is a non-ionic surfactant that helps uniformly wet and drain all types of synthetic growing media. SOAX® may be used in the production and maintenance of horticultural crops, such as bedding plants, perennials, flowering pot plants, and cut flowers. It provides easy initial wetting and rewetting of media, as well as uniform distribution and availability of moisture in the root-zone.

GROWING MEDIA TREATMENT PER CU. YD. (CU. METER) BY VOLUME

Seedling/Propagation media	3.0 oz. (90 ml.)
Bedding/Potted Plant media50 oz. (150 ml.)
Woody Ornamental media8.0 oz. (240 ml.)

RECOMMENDED RATES FOR PLANTS IN PRODUCTION

Initial application for media without a wetting agent:	
Seedling/Propagation media not treated with a wetting agent400 ppm
Bedding/Potted plant media not treated with a wetting agent ..	.1200 ppm

Crop maintenance for media with a wetting agent:

Concentration required (ppm volume/volume in water):	
Constant feed maintenance program10 ppm
Weekly feed maintenance program100 ppm

ORDER OF MIXING

For best results, add SOAX® liquid wetting agent slowly to room temperature water (60°F-80°F / 15°C-26°C), not to exceed 90°F (32°C). Stir or agitate solution while pouring to obtain the desired concentration.

WARRANTY

Seller warrants that this material conforms to its chemical description and is suited for the purposes stated on the label when used in accordance with directions under normal conditions of use. Seller makes no other expressed or implied warranty.

HAZARDS

Irritant: Ingestion, eye, and skin irritants. Wear approved eye protection and clothing. Wash skin and clothing thoroughly with water after exposure. If eye exposure occurs, wash copiously with water for at least 15 minutes. Seek medical attention if necessary. If ingested, seek medical attention immediately. If victim is conscious and able to swallow, quickly give water to dilute. Do not give anything by mouth if victim is unconscious or having convulsions. For skin irritation, wash exposed areas with soap and water. Seek medical attention if itching and redness persists.

STORAGE AND DISPOSAL

Storage: Do not contaminate water, food, or feed. Store in an approved facility out of reach of children or unauthorized personnel. Store indoors in original container. Always close container when not in use. Do not store product below 0°C (32°F).

Chemical Disposal: Dispose of unused contents according to all applicable national and local government regulations.

Container Disposal: Containers may be disposed of after thorough rinsing and offered for recycling or reconditioning or disposed of according to approved national and local regulations. Do not reuse empty containers.
