Corona® Burgon & Ball Love The Glove

Combining fashion with function, our Love The Glove women's gardening gloves bring a touch of style to the garden, with a host of technical design features to enhance performance. These ultra-soft gloves have been created in hardwearing fabric that doesn't stiffen when it gets wet. The padded palm gives extra cushioning to protect hands during tough or repetitive tasks, and there's two-way stretch mesh between the fingers to keep hands cool and improve dexterity. A wrist strap ensures a snug fit and keeps out debris, with a hook-and-loop fastening that's easy to open and close. The genuine leather trim adds a touch of luxury, and to keep these gloves looking smart. They're machine washable at 30°C.

Watering Supplies

Corona® Burgon & Ball FSC® Indoor Watering Can

Houseplants add so much to a home's style, so to care for them, why use a watering can which is anything less than gorgeous? This stylish indoor watering can is the perfect marriage of design and performance. The slender spout is perfect for delivering water just where it's needed – and nowhere else. The smooth FSC beech wood handle is extremely tactile and feels beautiful in the hand, giving precise control over pouring. And the watering can is beautifully molded in steel for a smooth, flawless finish, with a tough powder coating to ensure it stays looking good.

Corona® RHS Burgon & Ball British Meadow Watering Can

This mini watering can for indoor plants is more than stylish enough to leave on show. It's perfectly balanced and features an elegant slender spout to ensure the water only goes into the plant pot! In strong galvanized steel with a tough powder coating, this handy watering can is just the thing for indoor gardening. A beautiful new collection in the RHS Gifts for Gardeners series, 'British Meadow' showcases delicate meadow flowers and butterflies, reflecting today's informal gardens where nature can find a home, and the rediscovery of our love for native British wildflowers and wildlife. The elegant new design has been created by Burgon & Ball featuring illustrations dating back to 1815, specially selected from the RHS Lindley Collections of historic botanical art. A classic navy blue background lets the jewel colours of the blooms and butterflies shine out, bringing this lovely design to life.

Amdro® Ant Killer for Outdoor Home Perimeter

Kill outdoor ants before they make their way inside with Amdro Ant Killer for Outdoor Home Perimeter. Designed to surround your home with a band of protection, this dual-action bait attracts and kills listed common ant species. On top of that, it keeps working for up to three months. Foraging worker ants think the bait is food and carry it back to their colonies. Shared with other ants, including the queen, its ant-killing power goes to work. Expect to see fewer ants within one week. When the queen is dead, the mound dies!

Watering Supplies

Orbit Mechanical Hose Faucet Timer

The Orbit Mechanical Watering Timer provides timed watering from 15 to 120 minutes, giving your lawn just the right amount of water. It works just like an egg timer: twist the dial to the desired watering duration, and the timer will turn itself off upon completion. The mechanical operation requires no batteries and makes for an easy and quick solution for your watering needs. If you don't have a specific timespan in mind, simply use the manual override to keep the water flowing as long as needed. This timer features a comfort grip large dial for ease of use and is constructed of durable high-impact plastic. It comes with an ergonomic swivel for easy hose attachment. Using this timer also saves water in drought conditions.

Harris® Sea Salt Weed & Grass Killer

Sea Salt 10X Weed & Grass Killer is a quick-acting, non-selective contact herbicide containing an acid for which the residues degrade promptly in the soil. Foliar contact results in rapid desiccation and control of annual weeds and grasses, and top growth reduction of herbaceous perennial weeds and grasses. For control of established perennial weeds, retreatment may be necessary. This product may be applied up to two days before harvest. Use this product to control weeds that surround all food crops, nonfood crops (ornamentals) and non-production agricultural, farmstead, right-of-way, and institutional land sites. Use to control weeds in interstate freeways/highways, federal and state highways and city/county rods and walkways, railroad vacant lots. Suitable to keep down weeds in all botanical and private association ornamental gardens, kennels, dog runs, and other animal enclosures and walkways. EARLY SEASON ANNUAL WEED CONTROL: Apply this product when weeds are small (3 to 5 leaf stage) and actively growing. Spray this product on unwanted weeds (vegetation) to the point of wetness. For best results spray on dry leaves at temperatures between 50 and 75 degrees Fahrenheit. Conditions of high evaporation rates (temperatures high than 75 degrees Fahrenheit and low relative humidity) may result in reduced efficacy. Since dilution of this product will reduce effectiveness, avoid dilution. See back label for a full list of typical weeds controlled and application instructions. California approved.

Wildlife Care

Woodlink® Wild Bird Lovers Metal Kettle Grill Bird Feeder

The Kettle Grill feeder is sure to attract many birds to your backyard, providing you with plenty of enjoyment as birds congregate on the circular perch! Boasting an innovative design, this feeder allows seed to evenly dispense into the seed tray and stops dispensing once the tray is full. As the birds continue to dine from the circular perch, the seed is replenished into the tray so it remains consistently full. Bird feeder offers a sizable 2 lb seed capacity so your hungry birds are always in good supply. Not only will the birds love it, it also means less seed waste for you! In addition, the large overhang shields the tray and birds as they dine. Durable design with the metal finished with a powder coating and ensuring rust resistance for all-weather durability. Unique design makes it easy to fill and clean.

Woodlink® Wild Bird Lovers Smoker Grill Bird Feeder

Enjoy a bevy of different birds dining in your garden from the 4-N-1 Smoker Grill Bird Feeder with Suet and Fruit Cages. The smoker legs create the frame, with a copper powder coated steel roof for easy filling and cleaning. A metal suet cage sits on one leg and a fruit cage on the other for even more feeding options. The center of the piece is a fly through seed feeder that holds up to 1.75 lbs. of mixed or other seed. Each of the cages opens at the top, for simple filling, and the rectangular openings allow birds easy access to the treat. The "smoker chimney" stake holds one slice of fruit. The attached cable helps it hang with ease.

Zip® 2 in 1 Wood Firestarter

This Zip® 2 in 1 Wood Firestarter provides a very convenient way to start a fire outdoors while hunting or camping or indoors at home. Thanks to its one quick and easy starter log, there is no need for paper and kindling to get the fire going. Simply light the wrapper and when it's blazing nicely, add more wood as needed. It will burn for up to 45 minutes, and it can even light damp wood if you have no dry logs handy. This wood fire starter is made with 100 percent natural ingredients.

Miracle-Gro® Succulent Plant Food

Keep your succulent plants happy and fed with Miracle-Gro® Succulent Plant Food. This easy-to-use plant food gets to work as soon as it's applied, feeding instantly. Simply apply directly to soil and water as normal. We recommend applying 2 pumps for small pots and 5 pumps for large pots (over 6" diameter). Make sure to rinse from leaves as you water. For best results, feed your succulents every two weeks. In addition to feeding, other factors that contribute to growing healthy succulents include using a lightweight, well-draining soil and providing them with the right amount of light. A common misconception is that all succulents like hot temperatures. Some do, but others need a bit of protection from afternoon sun. Do some research on the varieties you're growing to ensure you place them in the right spot. In general, purple, red, and orange-leaved varieties grow best and most colorfully in full sun. Miracle-Gro® Succulent Plant Food is great to use on all succulents, including cacti, jade, aloe vera, zebra plant, moonstones, prickly pear, and more.

Scotts® Turf Builder® Weed & Feed

It's time to put a stop to weed-infested lawns - take action with Scotts® Turf Builder® Weed & Feed. This weed killer and lawn fertilizer utilizes WeedGrip™ Technology to grip onto and kill the lawn weeds you see and the ones you don't. It controls over 50 listed weeds, including clover, dandelion, and plantain. In addition, this product feeds to thickens your lawn and crowd out any future weeds. Apply Scotts® Turf Builder® Weed & Feed when weeds are actively growing and daytime temperatures are consistently between 60°F and 90°F. Make sure your grass is wet from dew or watering, as this helps particles adhere to weed leaves to produce the best results.

Garden Safe® Neem Oil Concentrate

Garden Safe Brand Neem Oil Extract Concentrate is designed for organic gardening. This concentrated formula acts as a garden fungicide, insecticide and miticide – it's three garden products in one. Use it on roses, flowers, houseplants, ornamental trees and shrubs, fruits, and vegetables in and around the home and home garden. Garden Safe Brand Neem Oil Extract Concentrate controls black spot, rust, and powdery mildew, and kills aphids, whiteflies, spider mites and other listed insect pests and mites. This formula kills eggs, larvae, and adult insects. Use it right up onto the day you harvest treated plants. Mix with water and apply at the rates listed on the product label. As with other oil-based products, time applications to early morning/late evening to minimize the potential for leaf burn. Active ingredient is Clarified Hydrophobic Extract of Neem Oil.

ferti-lome® MoleGo™ Mole Repellent Granules

ferti-lome® MoleGo™ Mole Repellent & Lawn Protection is a reliable and effective solution to deter moles and protect your lawn. This mole repellent is designed for use on ornamental turf, golf courses, and athletic fields to repel moles, gophers, armadillos, ground hogs, and other burrowing animals. It creates an unpleasant environment for moles, encouraging them to leave the area without causing harm. The formulation includes 10% Castor Oil (USP) to emit natural repellents and discourage mole activity, preventing unsightly tunnels and damage to your lawn. To use, apply the repellent immediately after detecting mole presence or in early spring, mid-summer, and early fall for ongoing protection. ferti-lome® MoleGo™ is easy to use and provides long-lasting results, making it a practical and eco-friendly choice for homeowners seeking a non-toxic approach to mole control.

ferti-lome® Azalea Evergreen Food Plus with Systemic 9-15-13

ferti-lome® Azalea Camellia Rhododendron Food 9-15-13 is a powerful and multi-functional fertilizer and insecticide combination designed to promote strong roots and beautiful blooms in Acid-loving plants. With its 9-15-13 nutrient ratio enriched with Trace Elements plus Imidacloprid 0.2%, this product provides essential nutrients to support healthy growth while effectively controlling a wide range of insect pests. The insecticide is absorbed by the roots and travels throughout the entire plant, offering highly effective and lasting protection. Unlike topical sprays, this systemic insecticide works inside the plant, ensuring rain and water will not wash off the protection. For roses, sprinkle 4 tablespoons around each plant, for shrubs, use 8 tablespoons per foot of plant height, and for flower beds, apply 8 tablespoons per 12 square feet. The protection extends up to 8 weeks, safeguarding new growth and enhancing the overall health of the plants. This versatile product can be used to control various insect pests, including adelgids, aphids, Japanese beetle adults, lace bugs, leaf beetles, leaf hoppers, leafminers, mealybugs, pine tip moth larvae, psyllids, root weevil larvae, soft scales, thrips, and whiteflies. With the ferti-lome® Azalea Camellia Rhododendron Food 9-15-13, gardeners can feed their plants and protect them against insect pests in one convenient application, ensuring thriving and vibrant gardens year-round.

Lawn & Garden Care

ferti-lome® Azalea Camellia Rhododendron Food 9-15-13

ferti-lome® Azalea Camellia Rhododendron Food 9-15-13 is a specialized and balanced fertilizer enriched with vital trace elements, designed to create optimal acid growing conditions for these flowers, promoting their thriving growth. With its 9-15-13 nutrient ratio, this plant food provides essential elements to support healthy foliage and beautiful blooms in these Acid-loving plants. To apply, use at the rate of 1/4 cup for each foot of height, ensuring the right amount of nutrients for your plants' specific needs. Feed existing plants in early spring to kickstart their growth, again after blooming to support continued vitality, and once more in the fall to prepare them for the colder months. Create an environment that encourages lush green foliage and vibrant flowers, resulting in healthy and vibrant plants throughout the year.

ferti-lome® Tree & Shrub Food 19-8-10

ferti-lome® Tree Shrub Food 19-8-10 is a scientifically formulated tree food designed to provide essential nutrients to trees and shrubs. Its penetrating action moves the food directly to the feeder roots when applied around the tree or shrub drip line, eliminating the need to dig holes. This versatile fertilizer is suitable for all types of trees and shrubs, including shade trees, nut trees, evergreens, citrus, tropical, and flowering trees. For optimal results, feed trees and shrubs twice a year. For shrubs, simply spread 1/2 cup per square yard of soil area, and for trees, consult the chart on the label; 20 lbs. will feed up to ten 4-inch diameter trees. With a balanced nutrient composition of 19% nitrogen, 8% phosphorus, and 10% potassium, ferti-lome® Tree Shrub Food 19-8-10 supports healthy growth and vibrant foliage in a variety of woody plants. Its precise blend of essential nutrients ensures optimal absorption and utilization, contributing to overall plant health and resilience.

ferti-lome® Weed Free Zone

ferti-lome® Weed Free Zone is a ready-to-use herbicide with a powerful formulation containing carfentrazone (0.0023%), mecoprop-p (0.066%), dicamba (0.018%), and MCPA (0.337%). This product offers excellent post-emergent broadleaf weed control and is rainfast in just three hours. With its four active ingredients, including Carfentrazone, it provides broad spectrum weed control and is particularly effective in cooler weather to tackle over 80 of the toughest broadleaf weeds. To ensure optimal results, shake the product well before use and direct the spray at the target weed, covering the upper leaf surfaces uniformly. Apply until runoff is achieved. It is important not to use this product above 85 degreesF to avoid potential issues. ferti-lome® Weed Free Zone is a reliable solution for gardeners seeking efficient and convenient weed control in their lawns and landscapes.

Lawn & Garden Care

ferti-lome® Weed-Out® Lawn Weed Killer

ferti-lome® Weed-Out® Lawn Weed Killer contains Trimec®, a patented combination of three weed killers: 2,4-D (5.88%), Mecoprop-p (5.45%), and Dicamba (1.21%). This potent formulation effectively controls over 200 broadleaf weeds, including dandelion, chickweed, clover, spurge, wild onion, dollar weed, ground ivy, and many others listed. For best results, apply when the temperature is between 65°F to 85°F. One pint of the product covers an area of 8,000 sq. ft. in St. Augustine grass and 6,000 sq. ft. in Bermuda, Fescue, and Bluegrass lawns. To use, dilute 2 oz. (4 Tbs.) of the product with 1 gal. of water before application.

ferti-lome® Weed-Out® Nutsedge Control

ferti-lome® Weed-Out® Nutsedge Control is a specialized herbicide formulated with sulfentrazone 0.05%. This potent product effectively targets and controls a range of pesky weeds, including purple and yellow nutsedge, kyllinga, plantain, clover, spurge, wood sorrel, knotweed, chickweed, curly dock, wild onion, wild garlic, and other listed weeds. For application, simply spot spray the weeds directly until they are well covered. In some cases, certain weeds may require repeat applications for complete control. This product ensures that it becomes rainfast in hours after application, offering reliable and efficient weed control for your lawn and garden areas. For detailed instructions, please refer to the product label.

Hi-Yield® Ammonium Calcium Nitrate

Hi-Yield® Ammonium Calcium Nitrate offers a potent blend of essential nutrients crucial for plant growth, specifically Calcium (Ca) and Nitrogen (N). Ideal for vegetable gardens, particularly for tomatoes and peppers, this formula plays a pivotal role in combating Blossom End Rot, a prevalent issue affecting tomatoes. Blossom End Rot is characterized by a calcium deficiency leading to physiological disruptions rather than disease, often occurs during rapid fruit enlargement stages when sufficient calcium fails to reach the fruit's end. With Hi-Yield® Ammonium Calcium Nitrate, gardeners can address this challenge effectively. It can be applied either as a soil (side dress) application or as a foliar spray, providing versatile solutions for optimal plant health and yield.

Hi-Yield® Improved Slug Snail Bait

Hi-Yield® Improved Slug Snail Bait is a powerful and user-friendly solution for controlling slugs and snails. Its formulation contains Metaldehyde 3.25% and Bitrex®, ensuring effective attraction and control of these pests. Once attracted, the bait paralyzes the slugs and snails, leading to their dehydration and eventual death when exposed to the sun. This product is particularly useful for controlling slugs and snails on Hostas and Impatiens, and it is safe to use in vegetable gardens. To apply, simply sprinkle a ring of pellets around the affected plants. One pound of the bait can cover an area of 4,400 sq. ft., providing long-lasting control for up to 3 to 4 weeks, even in all weather conditions. Hi-Yield® Improved Slug Snail Bait offers reliable and efficient pest control, ensuring healthier and more vibrant plants in your garden.

Hi-Yield® Super Concentrate KILLZALL™

4+ Weed & Grass Killer

Hi-Yield® Super Concentrate KILLZALL™ 4+ Weed & Grass Killer is a powerful and fast-acting solution to tackle unwanted weeds and grass. This non-selective herbicide contains a double surfactant formulation that dries quickly on plants, enabling rapid action. It is versatile and can be used in various areas, such as fences, paths, patios, sidewalks, curbs, driveways, around ornamental trees, shrubs, flower beds, and buildings. However, it should NOT be used on lawns. The formulation consists of Glyphosate 41%, ensuring effective results. For general weed control, dilute at 3 tablespoons per gallon of water, while for tough weed and brush control, use 5 tablespoons per gallon of water. With different coverage options, this product is a reliable choice for lawn renovation, brush and vine control, and stump treatment needs.

Hi-Yield® KILLZALL™ Aquatic Herbicide

Hi-Yield® KILLZALL™ Aquatic Herbicide is a potent non-selective weed and grass killer designed for use in aquatic and other non-crop sites. It effectively controls a wide range of vegetation, including annual and perennial grasses, broadleaf weeds, and woody brush species listed on the label. Additionally, it provides excellent control of specific plants like Canadian Thistle, Chickweed, Dock, Foxtail, Pigweed, Ragweed, and more. This versatile herbicide is labeled for annual and perennial weeds, woody brush, and trees, as well as aquatic environments and new crop sites, making it suitable for wildlife habitat restoration and management areas. It is also effective for cut stump applications and controlling winter annual weeds in dormant Bermuda Grass. The specialized formulation targets and eliminates aquatic weeds and plants in ponds, lakes, and other water bodies, ensuring clear and healthy aquatic environments. Its easy application process allows for precise treatment, making it an ideal choice for homeowners, pond owners, and professionals seeking to manage unwanted vegetation in aquatic settings.

Droll Yankees® A-6RP Classic Sunflower Feeder with Ring Pull Advantage

The A-6F Classic Bird Feeder, invented in 1969, was the first tubular bird feeder. This updated version, A-6RP Classic Sunflower Bird Feeder, stays true to the iconic classic while adding the ring pull advantage feature for easy cleaning. Simply pull the ring to disassemble the feeder in seconds - no tools needed! Ports for all seed types protect the tube against squirrel damage. Detachable cap allows removal of all parts. UV-stabilized polycarbonate tube. Durable metal parts that resists damage from squirrels. Made in the USA.

Perky Pet® Clear Hummingbird Nectar

Perky Pet® Clear Hummingbird Nectar is a transparent and high-quality nectar formulated to attract and provide nourishment for hummingbirds. This clear nectar offers essential sugars for these birds, mimicking the natural nectar of flowers and making it highly appealing. All of Perky Pet's red dyes are natural, made from flowers, mostly hibiscus. It's an excellent choice for bird enthusiasts seeking to attract hummingbirds to their feeders.

64oz - 15% Sugar - Ready-to-Use
