DeWitt® Dew Right Tree Water Bag

Eliminate the severe water stress that new trees endure after transplanting. This tree watering bag is designed specifically to increase first-year survival rate and set the stage for a long, healthy life. 20gal bag empties in five to eight hours and only needs to be refilled one or two times per week for most trees. Installs easily in just five minutes, without tools. A single bag fits trees up to 3in in diameter. Zip two bags together to fit a 3in to 5in diameter tree. Made from heavy-duty, green-coated polypropylene that is UV stabilized to last after long hours in the sun. Safe to use with nutrient or chemical additives.

Blumat®

Drip Irrigation

Blumat Bottle Adapter Plant Watering Stake

Much better than the wine bottle versions because Blumats are so much easier to refill: just cut the bottom off plastic bottle and fill with your regular watering can. Better than the globe spikes because these disperse the water evenly, not just through a hole in the bottom. Just fit this adapter into almost any standard plastic bottle, fill the bottle with water and push into the soil near a plant. The porous cone will slowly start to distribute water throughout the day.

XL - 300mil during 24hrs
SUSIG15481-992 **UPC** 900268302220
 Min. Buy 5EA **Retail** \$13.99

Blumat Plant Spray Mister

Probably the best mister - compact, beautiful and works like a charm. The famous Haws mister but not in the Haws gift box. People tend to lose their plastic bottle misters (which also tend to quickly break and stop working) because they are so ugly and we're always hiding them from view. This one looks so good that there is no problem keeping it in plain view.

Hoses

Flexzilla® SwivelGrip™ Garden Hose

Flexzilla® makes it easier to work around your home and lawn. SwivelGrip™ action eliminates twists that occur when uncoiling a hose. Conventional garden hoses can trap coils that tighten into kinks as you move across the yard. SwivelGrip™ releases these trapped coils because the hose rotates freely inside the grip. The large, comfortable gripping surface on both ends of the hose makes connections much easier to turn and tighten. SwivelGrip™ hoses are also drinking water safe.

Hoses

Swan® Contractor +® Hose

The Contractor+® hose is built tough for every day use. Its size makes it highly kink resistant. Heavy duty, crush-resistant, lead-free aluminum couplings along with a durable abrasion-resistant cover make this hose very popular with the demanding industrial trade. Added reinforcement gives this hose a high burst strength for varying water pressures and long life on the job. Limited lifetime warranty.
