## Trees & Ornaments

### Cinco® Advantage Christmas Tree Stand

Economical model. Made of virgin, high-impact polypropylene assures durability and reliability. The steel cored plastic bolts are easy to use and make light work of set-up. With a low, wide and generous water holding reservoir, this model accommodates low branches and keeps the tree fresh. Steel spikes at the center of the reservoir anchor the tree safely, prevent shift and makes set-up a snap. Reinforced holes on the outer edge of the stand allow attachment to plywood if additional stability is needed when used with an extra large tree. Spill guard prevents over-filling mishaps.

# FATWOOD

## FIRESTARTER

### Hearth Accessories

#### Fatwood® Firestarter

Harvested from the trunks of lumbered pine trees where the combustible sap concentration is highest. This all-natural fire starter is an eco-friendly choice that has no chemical or petroleum fuels, lights with only one match, and creates a sustained flame. Two sticks are enough to start a roaring fire. 100% all natural pine wood hand split into approximately 8in lengths. Unlike most other fire starters, Fatwood is ideal for any indoor or outdoor situation. There's no spilling, no odors, no chance of flare-up and no dangerous toxins to breathe. It's safe and clean and Fatwood has an indefinite shelf-life. You can use it to start your backyard grill or your indoor fireplace safely and easily, even when wet! So leave the kerosene-soaked products, the smelly fluids and the sawdust composites to the other guys. When you're ready to put your fireplace, chimenea, grill or pellet or wood stove into action, grab two sticks of all-natural Fatwood. That's all you'll need.

### Echo Valley® Glass Globes - Traditional Handblown Glass

Hand-blown glass gazing balls date back centuries to Victorian England and were used by the aristocracy to ward off evil spirits and witches because of their reflective properties, and hence the moniker "witches balls." Today they are used as ornamental centerpieces in flowerbeds, gardens, and yards and are designed to reflect the beauty of the surrounding landscape. Each piece is individually hand-blown, no two are identical.

**SuperMoss® Sphagnum Moss Dried**

Long fiber, premium grade, long lasting sphagnum. Absorbs up to 17 times its weight in water. Excellent for anchoring roots in orchid potting. Sphagnum provides water to the roots according to the plant's needs, while allowing for optimum oxygenation so that the roots can uptake vital micronutrients. It makes for an excellent soil conditioner or top layer on potted plants like orchids. Use nursery sphagnum when transplanting, aerating soil, conditioning or just dressing up any potted plant.

## Outdoor Furniture

### LA SIESTA® Weather Resistant Domingo Hammock Chair

Weatherproof hammock chair Domingo offers lots of room for dreaming the hours away outdoors. It offers enough room to comfortably sit upright or recline back and kick your feet up—just like a good hammock, except even more versatile. The Domingo is made of weatherproof, fast-drying Outdoor-fibre, so it can be left outside all summer. A typical characteristic of all hammocks manufactured in Colombia: the large number of suspension cords which ensure optimal weight distribution and therefore comfort and longevity. Reinforced edges make the material extremely tear-resistant. The integrated safety swivel guarantees safe 360° rotation. The spreader bar is made from high-quality bamboo. It is not just a visual highlight, but also particularly robust and weatherproof. Naturally, the wood comes from responsibly managed forests (FSC™).
