Down To Earth™ Langbeinite 0-0-22

A naturally mined crystalline mineral that supplies the water-soluble sulfate form of three vital plant nutrients: potassium, magnesium and sulfurs. It's maximum chlorine content is less than 3.0 percent, minimizing the potential for fertilizer burn, and it's neutral pH does not alter soil activity. Potassium contributes strongly to overall plant health by regulating internal processes. Since potassium makes up part of the fluid of the plant, it is found throughout plant tissue, meaning plants need a strong source of potassium as they grow. OMRI Listed

Down To Earth™ Soluble Root Growth Enhancer

Down To Earth™ Root Growth Enhancer is a super fine all-purpose combination of Endomycorrhizal and Ectomycorrhizal Fungi plus humic acids to benefit a diverse selection of plants, trees and shrubs. These microscopic soil organisms are critical for developing expansive root systems, improving nutrient cycling and soil structure and protecting against a variety of plant stresses including drought and environmental extremes. This easy to use, water-soluble formula will aid in dramatically increasing root growth for more vigorous plants and trees. DTE™ Soluble Root Growth Enhancer can be watered in to porous media in gardens, seed beds or propagation trays or applied directly to seeds, roots and cuttings when transplanting.

Nutrients & Additives

Down To Earth™ Liquid Calcium 5%

Down To Earth™ Calcium is an essential nutrient that plays many important roles in plant growth. DTE™ Calcium is needed for cell wall formation, normal cell division in new growth and proper fruit development. Calcium deficiency can result in poor root development, yellowing of new plant tissue and fruit and vegetable abnormalities, such as blossom end rot in tomatoes. Foliar additions of calcium can be used to correct or prevent deficiencies of this valuable nutrient.

EYE HORTILUX® Ceramic Metal Halide Grow Light System with Lamp

Lower energy costs and reduce space needed with the CMH 315 Grow Light System. Components are optimized to work together efficiently. The shape and metal composition of the reflector were designed to work together with the ballast and lamp to give you a more even distribution of light over the target area. This optimization provides 30% more uniform light to plant canopy and 8% more light overall than the competition.

EYE HORTILUX® Ceramic Metal Halide Lamp

Ceramic Metal Halide (CMH) designed specifically for horticulture. Most ceramic metal halide lamps were designed for use in the retail space, so the UV light was blocked. Hortilux uses a glass that allows the UV light to pass through benefiting plant growth. The exclusive EYE HORTILUX® CMH spectrum provides 50% more Ultra Violet (UV) than the competitive lamps available today. This results in better overall plant growth and higher yields. Made in the USA.

GROW!™ Coco Coir Mix Brick

Give your plants a sturdy growing structure with GROW!'s Coco Coir Bricks. Now available at Hydrofarm, Coco Coir Bricks support your plants all year long. The bricks, available in a mix or chip format, do double duty: They retain water, making sure plants never go thirsty, but due to their texture, they also offer excellent drainage properties. Plants are no longer at risk of "drowning" in too-packed or over-watered soil. Instead, GROW!'s ideal consistency gives them room to breathe and for roots to grow freely, capturing that essential air-to-water ratio for your biggest growth yet. Implement this pathogen-free media to your potting soil or in place of bark as an attractive and all-natural ground cover. Each brick expands to 0.26-0.33cu ft (2-2.5gal) of wetted coir.

ORGANOCIDE® Plant Doctor

Nutrients & Additives

Plant Doctor® Systemic Fungicide

An earth-friendly broad spectrum disease control and preventative for use on turf, fruit trees, vegetables, ornamentals and flowers. Controls and prevents a myriad of plant diseases including those that cause root rot, leaf and stem blights, leaf spots and more as listed! A systemic product, it has a foliar or root application that will work its way throughout the entire plant to prevent disease and attack existing disease above and below ground. Once inside the plant, Plant Doctor® increases plant metabolism so plants grow faster, bloom more and have an increased yield while providing a nutritional boost of potassium and phosphorus, essential nutrients for plant growth.

Coop Poop™ All Purpose Garden Food by Healthy Grow®

Coop Poop™ organic fertilizer by Healthy Grow® is naturally packed with the essential nutrients your soil needs to grow hearty, healthy plants. This Aerobically Composted Chicken Manure (ACCM) is high in calcium for strong plant tissue development and disease resistance, while also improving photosynthesis, nutrient uptake and starch conversion. Plus, Coop Poop is virtually odor-free compared to the pungent scent normally associated with other manure-based composts. Easy to use and apply at any time. Will not burn. High performance improves soil health. Stimulates microbe activity. High in calcium. Low odor. Safe for kids and pets. OMRI(tm) listed.

SUNBLASTER

HORTICULTURAL LIGHTING

Flats, Trays & Peat Pots

CowPots™

Made from 100-Percent renewable composted cow manure, CowPots give seedlings a better start. Tender, young roots easily penetrate the sides and bottoms of CowPots, allowing for unrestricted growth and healthier roots mean stronger plants. Planted CowPots breakdown fast in the ground. Composted manure naturally biodegrades quickly, so at 3 to 4 weeks, decomposition is well underway. CowPots are long-lasting before planting seedlings in the ground – staying intact for up to 12 weeks – plenty of time to give seedlings a good strong start. Best of all, the manure in CowPots is a renewable resource, unlike peat which is mined from bog eco-systems or plastic which is derived from finite fossil sources.

HORTICULTURAL LIGHTING

Lighting

SunBlaster™ LED Grow Light Garden Micro

Same features as the Growlight Garden but in a reduced footprint making it ideal for those with limited space. Grow what you love, love what you grow - all year long. Perfect for growing salads and herbs or for early season seed starting. Use also to boost flowering house plants out of season. Plants are never over-watered or under-watered, keeping them healthy and promoting vigorous root growth. An inner platform keeps plants above the water level, and a convenient fill hole lets you top up the reservoir as needed. Supplied with 4 reusable tough growing trays for easy succession planting. Includes raised platform insert and capillary matting allowing plants to self water for up to 7 days. Micro LED Growlight Garden includes: SunBlaster 12in 6400K LED Strip Light, Power-cord with on/off switch, raised platform with wicking mat (for auto watering), and four heavy duty reusable seedling trays.

White Finish / Includes: SunBlaster 12in 6400K LED Strip Light, Power-cord with on/off switch, raised platform with wicking mat (for auto watering) and 4 heavy duty reusable seedling trays

FoxFarm® Bush Doctor® Bembé® Fertilizer 0-1-3

From the deepest jungles of the African Congo comes the word "Bembé" which means Sweet Offering. This is a delicious treat for your plants that is extraordinarily fragrant and colorful. Bush Doctor® Bembé® is a liquid concentrate that is precisely created with a complex array of sugars and nutrients. When used as directed, Bembé® can help plants achieve enhanced sweetness qualities, while providing a food source for the microbial populations at the root zone.
